OTT PLATFORM / UI/UX CASE STUDY

MYPLAY

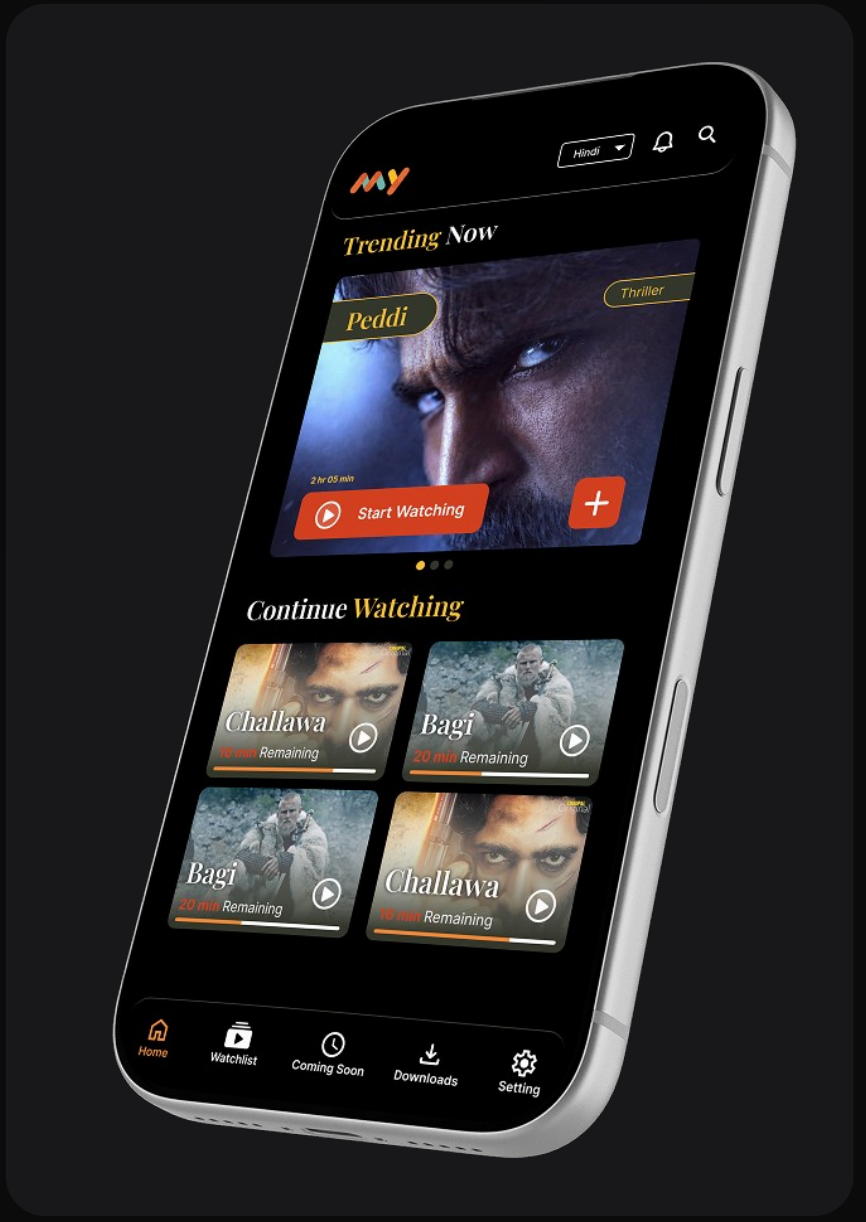

Entertainment, Your Way.

A familiar streaming experience for Indian audiences, built around regional and Hindi entertainment.

Project overview

CATEGORY	OTT video streaming platform
AUDIENCE	Indian viewers of mainstream and regional entertainment
CONCEPT	Regional storytelling inside a familiar streaming app
IDENTITY	Cinematic, modern, culturally grounded; brand colour #D34020
DESIGN OBJECTIVE	Make discovery and playback feel instantly familiar

The product opportunity

Regional entertainment should be as easy to find as mainstream titles.

PRODUCT HYPOTHESES · NOT RESEARCH FINDINGS

H1

Language preference

Viewers may start from the language they speak, before genre or cast.

H2

Regional discovery

Regional titles may surface more easily when language is a primary way to browse.

H3

Cultural relevance

Familiar stories and settings may feel more personal and worth returning to.

Problem statement

HMW

How might we help Indian viewers discover entertainment that reflects their language and cultural interests through a familiar, intuitive streaming experience?

Language

Viewers choose content the way they already think about it.

Culture

Regional identity lives in content and tone, not in unfamiliar controls.

Familiarity

Standard OTT patterns keep the effort of learning low.

Hypothetical audience segments

PROFILE A

Language-first viewers

Potential need

Prefer entertainment in a familiar language.

Design implication

Make language a visible, early entry point.

PROFILE B

Curious explorers

Potential need

Younger viewers moving between regional and mainstream titles.

Design implication

Mix both in shared rails, with familiar search.

PROFILE C

Shared-screen households

Potential need

Varied tastes and age-appropriateness needs.

Design implication

Clear metadata and easy-to-find content controls.

Hypothetical profiles for design discussion — not research-validated personas.

Product strategy

1 Familiar streaming interactions

Use conventions viewers already know.

2 Regional, language-led discovery

Language is a first-class way to browse.

3 Clear content hierarchy

One featured title, then shelves.

4 Simple navigation

Five tabs, one search entry.

5 Consistent interaction patterns

Same buttons, labels and spacing throughout.

6 A distinctive Indian identity

Brand colour and content set MYPLAY apart.

Jakob's Law in MYPLAY

PRINCIPLE

Users spend most of their time on other products, so they prefer interfaces that work the way those products do.

User need

Reach a title without learning a new interface.

Applied here

Recognizable OTT conventions, with MYPLAY identity on top.

DESIGN DECISIONS

Bottom tab navigation	IN SCREENS
Poster cards with title and progress	IN SCREENS
Prominent Start Watching button	IN SCREENS
Search with back arrow and mic	IN SCREENS
Add to List and Download actions	IN SCREENS
Language-led rails in familiar shelves	PROPOSED

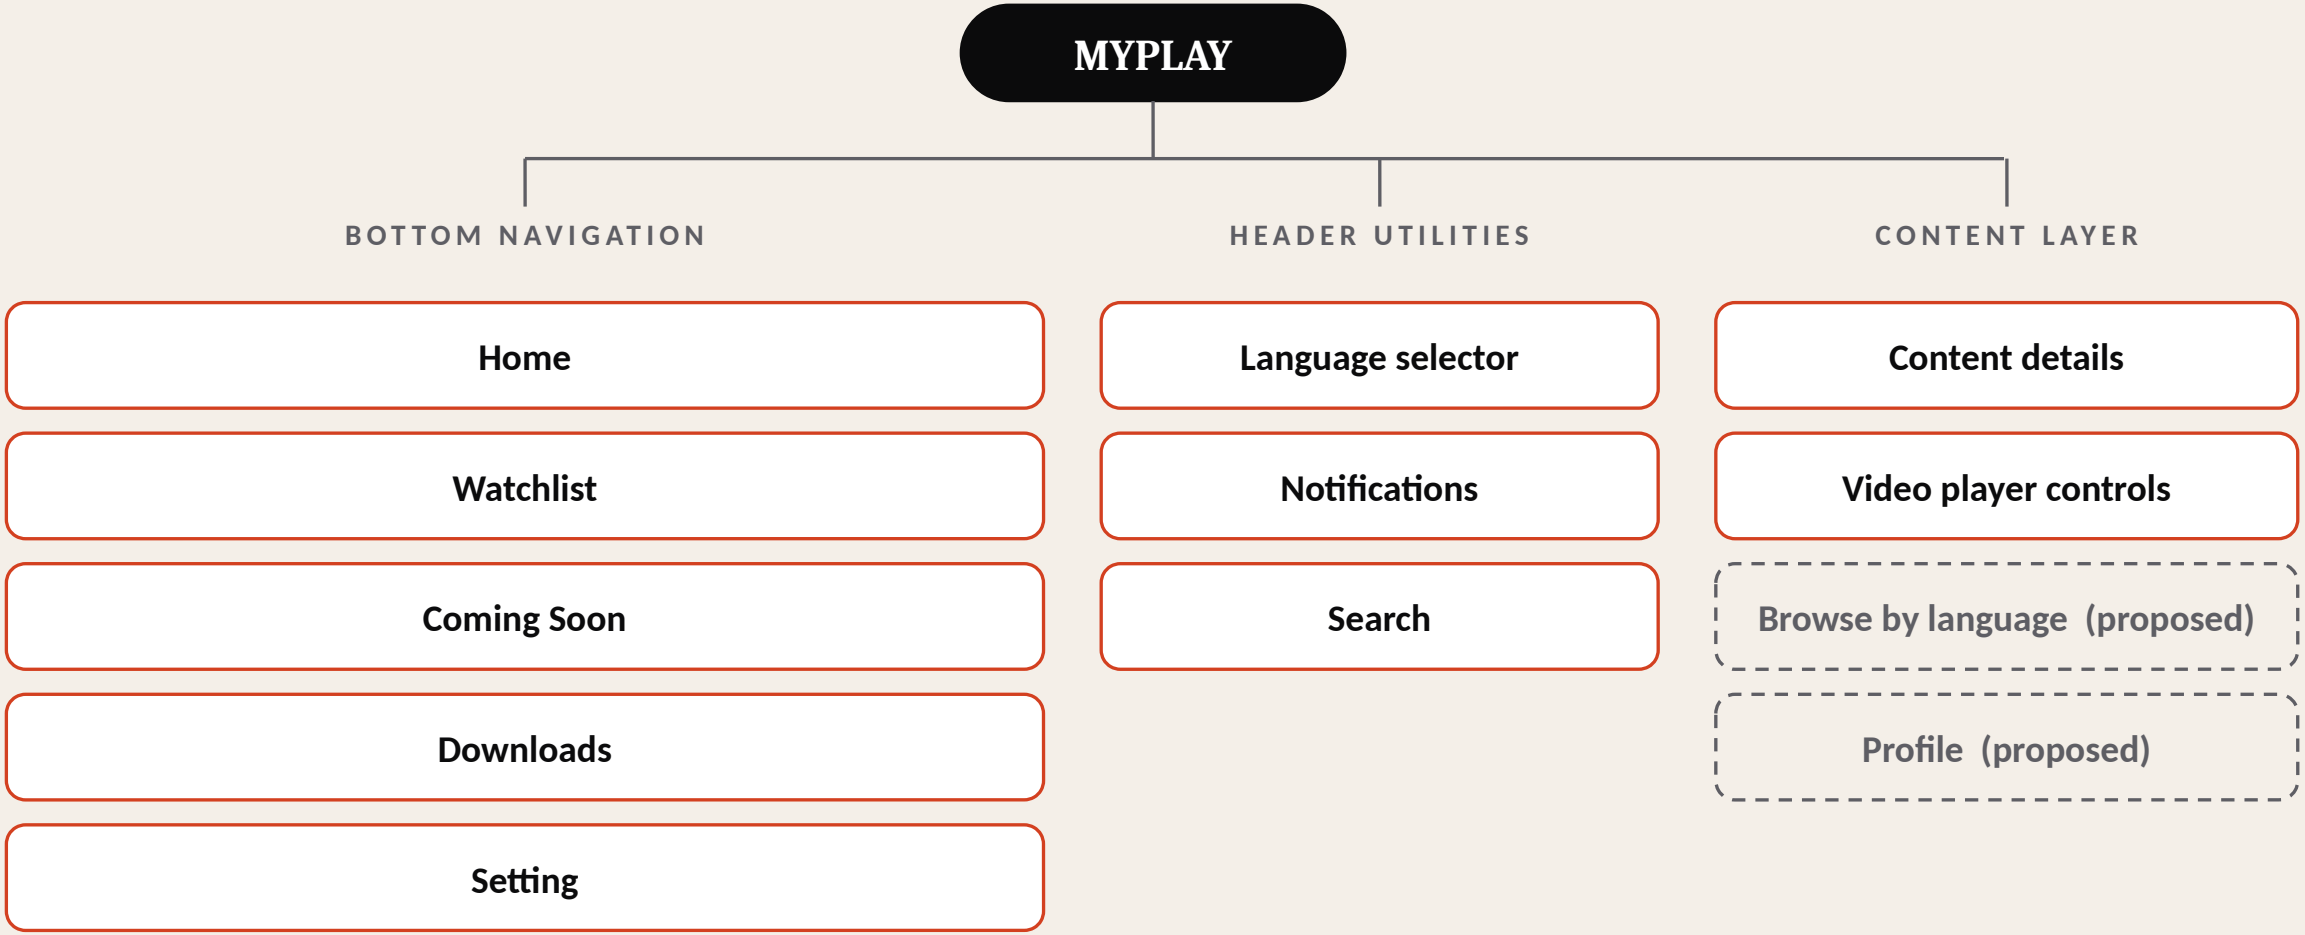

INTENDED BENEFIT

Less to learn, faster to first play.

A hypothesis to validate: lower learning effort and a more intuitive first use.

"In screens" = visible in the supplied mockups. "Proposed" = design direction, not shown.

Information architecture

Solid orange outline = visible in the supplied screens. Dashed = proposed, not yet designed.

Proposed viewer journey

1

Open MYPLAY

Land on Home with Trending Now and Continue Watching.

SEEN IN: HOME

2

Browse or search

Scroll shelves or tap the header search icon.

SEEN IN: HOME, SEARCH

3

Discover a title

Poster cards with titles make choosing quick.

SEEN IN: HOME, SEARCH

4

Review details

Genre, runtime, synopsis and actions sit below the player.

SEEN IN: DETAILS

5

Start watching

One orange primary button and standard controls.

SEEN IN: DETAILS

6

Return to saved

Continue Watching and Watchlist bring viewers back.

SEEN IN: HOME, TAB BAR

Proposed journey, not research-validated. Every step leans on a convention viewers already know.

Typography

Serif display for titles, clean sans for labels and metadata.

Iconography

Simple line icons paired with text labels.

Image treatment

Poster-led cards, rounded corners, titles set over imagery.

Layout

Dark surfaces, generous padding; orange reserved for key actions.

Regional content discovery

PROPOSED LANGUAGE-LED BROWSING

Malvi | **Hindi** | Rajasthani | Marathi

Language-led navigation

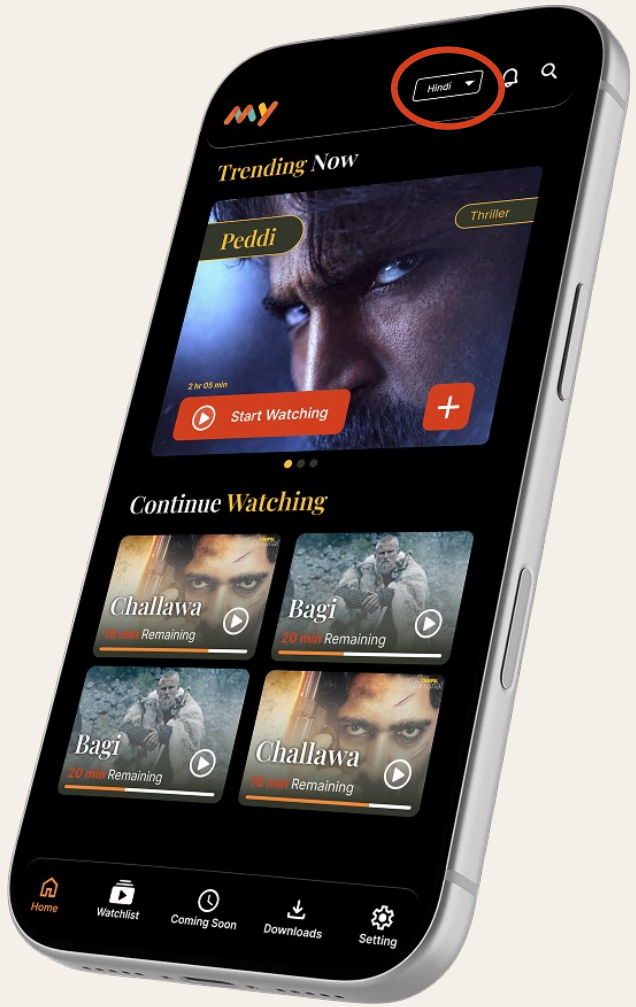

The Hindi selector on Home is the visible entry point; more languages would extend it.

Familiar categorization

Language shelves would sit beside Trending Now and Continue Watching.

Distinct, not unfamiliar

Regional identity shows in content and tone while controls stay standard.

Ring: language selector (visible). Other languages are proposed.

Home

1

Trending Now hero

One featured title with runtime, genre tag, Start Watching and a + button.

2

Continue Watching

Poster cards show titles, minutes remaining and a progress bar.

3

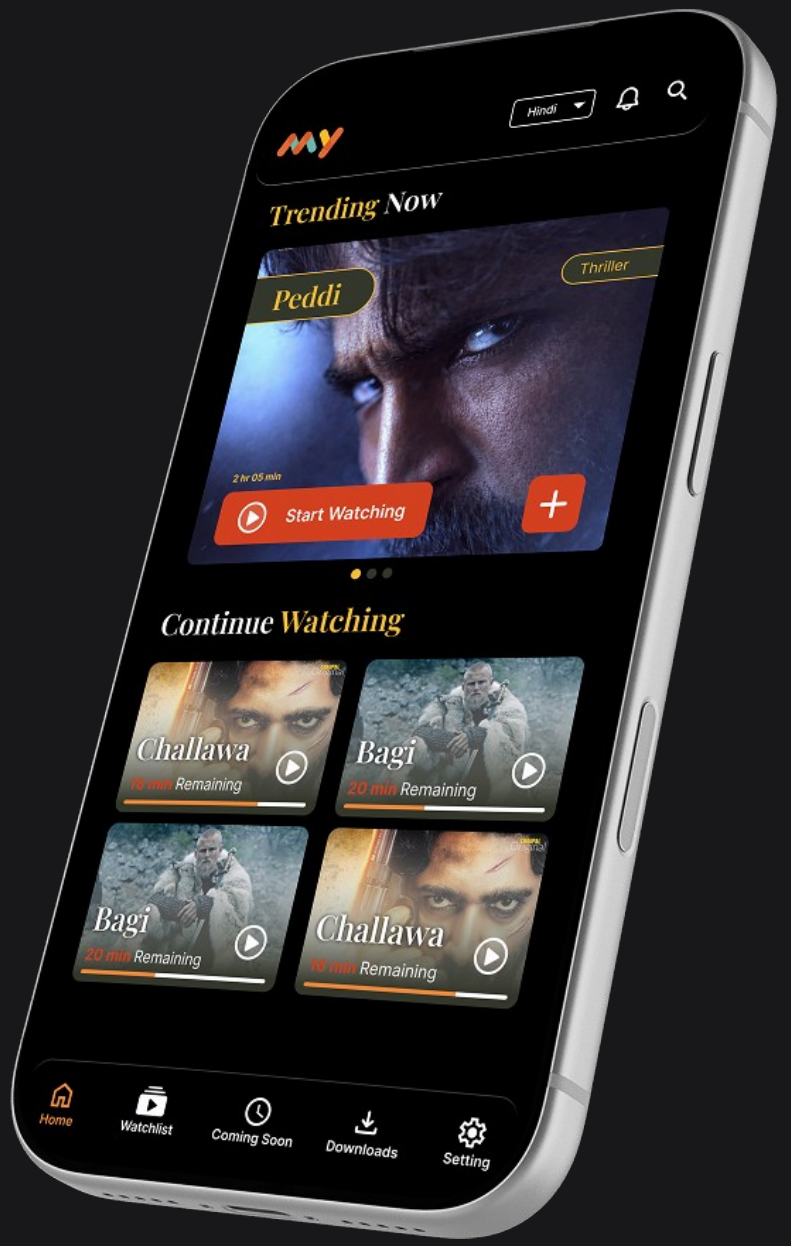

Header controls

Language selector, notifications and search share one familiar row.

4

Bottom navigation

Home, Watchlist, Coming Soon, Downloads, Setting; Home is highlighted.

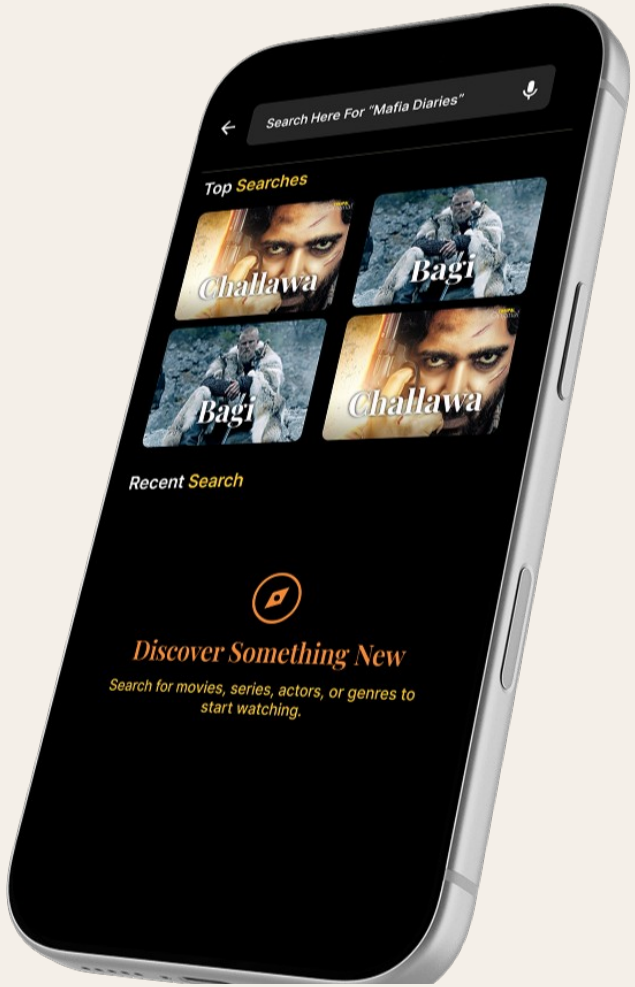

Search

Search bar

Back arrow, a prompt (Search Here For “Mafia Diaries”) and a microphone icon.

Top Searches

A poster grid offers a starting point before the viewer types.

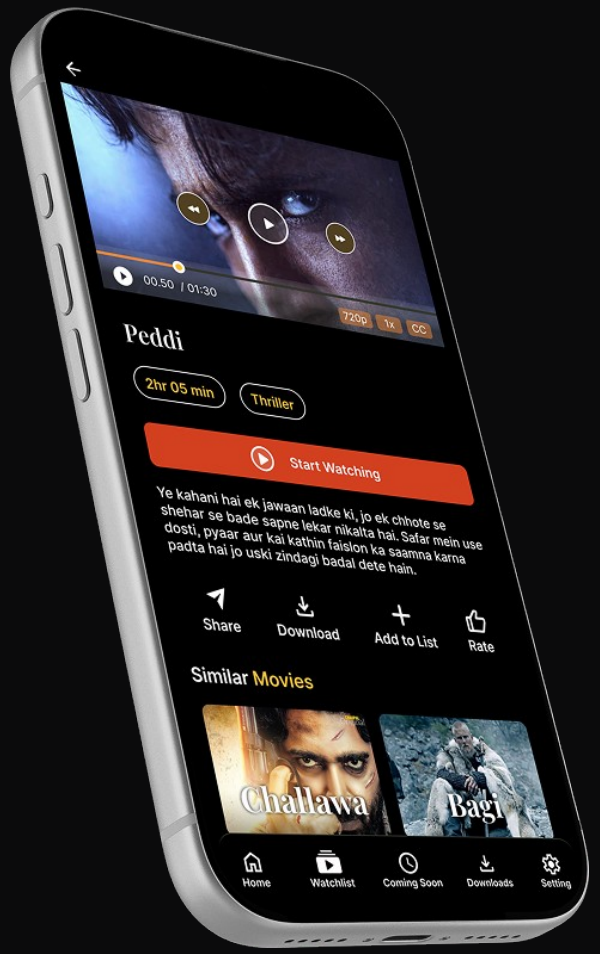

Recent Search

Currently empty; a compass icon and “Discover Something New” invite exploring.

Familiar pattern

Back arrow, mic and suggested titles mirror common OTT search.

Content details

Player preview

Scrub bar at 00:50 / 01:30, rewind, play, forward, plus 720p, 1x and CC.

Title and metadata

Title with runtime and genre shown as compact pills.

Primary action

A full-width orange Start Watching button.

Secondary actions

Share, Download, Add to List and Rate, then Similar Movies.

Design rationale and future validation

KEY DECISIONS

Familiar patterns first

Tab bar, poster cards and standard search lower learning effort.

Orange for action

Brand colour marks primary actions and active states.

Language as entry point

The Hindi selector anchors regional discovery.

Content leads

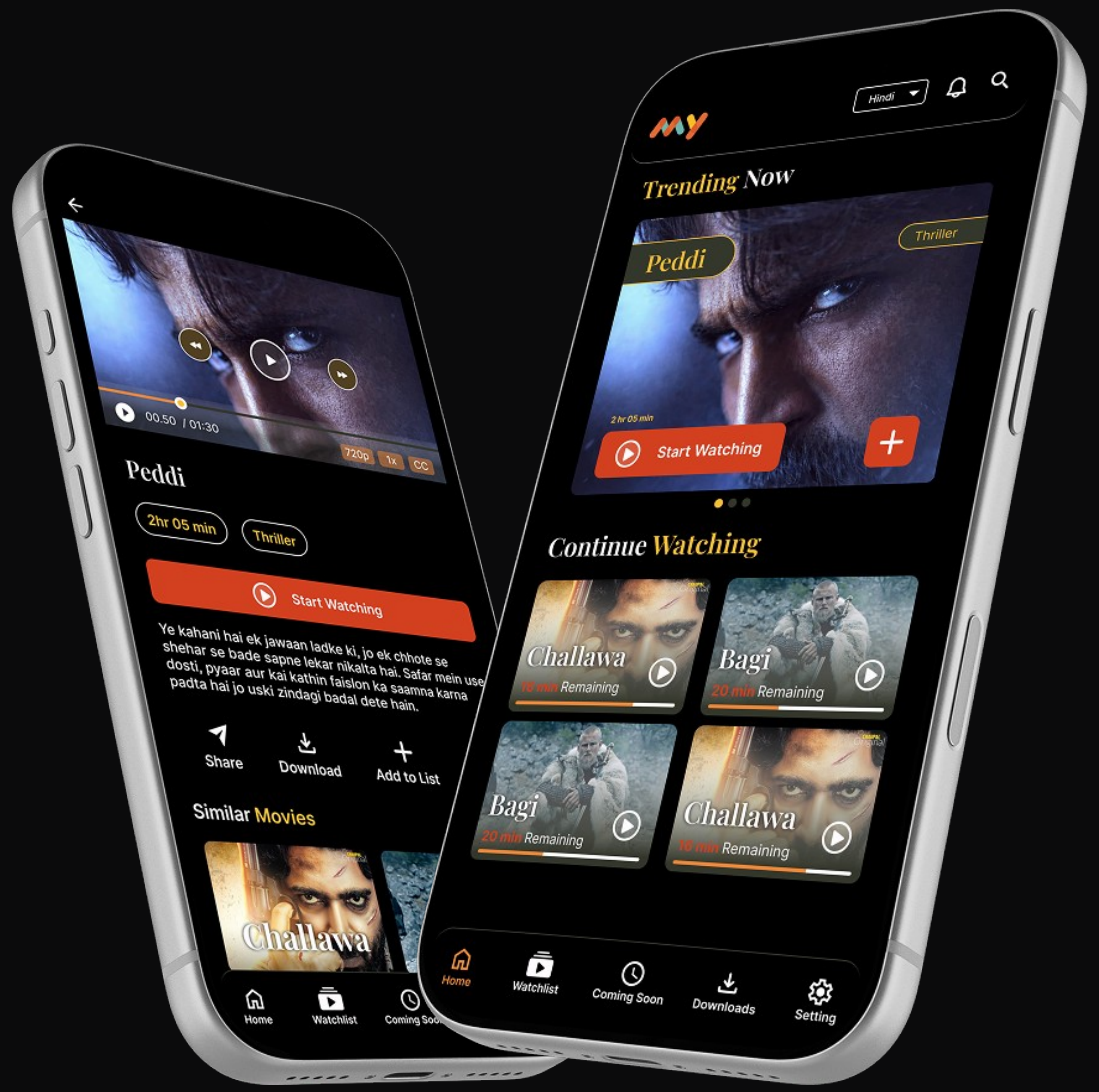

Poster imagery carries the interface.

FUTURE VALIDATION · PLANNED, NOT DONE

- [ ] Do viewers understand the navigation at first glance?
- [ ] Can they find regional content easily?
- [ ] Do search and browsing meet expectations?
- [ ] Are interaction patterns consistent across screens?
- [ ] Are contrast and content controls accessible?
